

J-LINK ADDED VALUE

Major Flexibility

Time saving

Identification lines

Self-extinguishing UL 94-V0

J-LINK is a ready-to-use flexible prefabricated shunt made of tinned copper braid, coated with PVC insulation. J-LINK is the quickest and most convenient solution to create electrical connections from 125 to 630 A. The connection terminals are made of pressed tinned copper tubes. They were designed by looking at the terminals of the most widespread switchgears on the market, thus making it possible to get the best electrical contact possible. The hole diameter, on one side, allows the optimization of the electrical contact in relation with the switch terminal whilst on the other side allows the possibility to have a universal contact with the bar distribution system. Made of PVC, the insulation meets all the electrical specifications required in LV applications. Maximum continuous working temperature is 105°C.

The best alternative to cable connections and flexible bars

ADVANTAGES

- Ready-to-use connections: no preventive operation is required
- Extreme flexibility compared to a cable with similar cross-section
 - Volume reduction inside the panel board
 - Weight reduction
 - Great time saving
 - No cable to cut to measure
 - No stripping of cable heads
 - No lug to buy
 - No crimping needed

EXCELLENT ELECTRICAL PARAMETERS

- Excellent electrical insulation
- Improved contact surface
- Improved ampacity at equal cross-sections compared to a cable and/or reduced cross-sections at the same rated current
- Reduction in heat due to the lack of crimped connections and to higher ampacities
- Excellent short-circuit resistance

RANGE

Cross-sections: from 25 mm² to 240 mm²
 Lengths: from 230 mm to 1030 mm
 Rated ampacity: from 125 A to 630 A

UL
 File n° E300607

SOLUTIONS FOR THE CLAMPING OF J-LINK

Refer to page 22

J-link Plus

High safety performance with J-LINK PLUS, equipped with halogen free insulation, flame retardant, low smoke emission, hyper flexibility. J-LINK PLUS is recognizable from the light blue line.

J-LINK PLUS ADDED VALUE

Insulation TPE compound

Halogen free

Self-extinguishing UL 94-V0

Low smoke emission

J-link Color

Upon request, J-LINK becomes J-LINK COLOR, to identify the phases, or to satisfy personal taste as well as corporate aesthetic.

TECHNICAL FEATURES

Insulation

PVC Compound
Self-extinguishing UL 94-V0
Thickness: ≈ 2 mm
Black color with a white line
Max. elongation: 365%
Hardness: 80 Shore A
Tensile strength: 19 MPa

Finished product

Dielectric rigidity: 20 kV/mm
Rated voltage: 1000 V AC/1500 V DC
Working temperature: $-40^{\circ}\text{C} \div +105^{\circ}\text{C}$

Conductor

Tinned electrolytic copper braid Cu-ETP
99.90%
Standard wire: 0.20 mm
Terminal in tinned copper tube
